RESIDENT & FAMILY FEEDBACK

*Providing loving, dignified quality care and
enabling people to live full and abundant lives*

WHO DO I
TALK TO

MESSAGE FROM THE CEO

Feedback can come in two forms; positive feedback or negative feedback. Either way, feedback is essential in our continued growth towards living our mission of "providing loving, dignified and excellent care in a home like environment that enables all people to live full and abundant lives. We all like to hear positive feedback that we can share with our each other. However, it's the negative feedback that provides an opportunity for growth!

This feedback brochure provides information on our Senior Leadership Team and can help identify the Senior Leader that can best address any concerns you may have. As well, we are very fortunate to have Melissa Arnott, a Registered Social Worker on our Team to help facilitate feedback discussions.

We are building our feedback process on respect, confidentiality and a willingness to listening and responding to your feedback in a safe and timely manner.

Building relationships with both residents and their families is very important to us! In the event our services are not meeting your expectations, I invite you to bring that experience to myself or Melissa and we will address your concerns in a respectful, confidential and timely manner.

Now, let's meet Melissa!

Terry MacIntyre, CEO
RK MacDonald Nursing Home

PROVING FEEDBACK brochures and Feedback Forms can be located in a wall mount envelop to the right of the elevator in the main lobby area.
